Health and Safety at Work Qualification

This Level 2 qualification is aimed at anyone who needs a basic understanding of the principles of health and safety at work. It provides a general awareness of health and safety issues and can be taken by employees at all levels within the organisation. It also provides a step for those who wish to progress to higher level qualifications, such as a NEBOSH Certificate in Occupational Health and Safety.

The qualification is divided into two units: HSW1 (Workplace safety foundations) and HSW2 (Workplace risk assessment).

The course covers

- Health and safety foundations and responsibilities
- Risk assessment and risk control
- Work equipment and workplace safety
- Transport safety
- Electrical safety
- Fire safety
- Manual handling and repetitive movement
- Hazardous substances

Entry Qualifications

No formal qualifications are required.

Assessment

Unit HSW1 is assessed by a one hour multiple choice examination. Unit HSW2 is assessed by a one-hour practical assessment that should be carried out in the candidate's own workplace
