NEBOSH International Diploma

This NEBOSH International Diploma has been set at the same level as the National Diploma but with the exclusion of UK legislation. It is recognised by IOSH – the Institution of Occupational Safety and Health – as fulfilling the academic requirements for Chartered Membership (CMIOSH). The Diploma is designed for health and safety professionals who require a high degree of managerial and technical competence to advise on effective management of risk across a range of different employment sectors.

Entry Qualifications

Candidates must have obtained the NEBOSH International General Certificate or an equivalent qualification before starting a Diploma programme and should have a good standard of written English.

Course Content

The syllabus comprises three core units and a workplace assignment:

Unit IA Managing health and safety	Unit IB Hazardous substances/agents
Unit IC Workplace and work equipment safety	Unit DNI Assignment

Examinations

Units IA, IB & IC are assessed by written examination. The examinations are held twice a year in January and July. Examinations can be taken in the UK or overseas through a British Council Office or local university/college.

Work-place based Assignment (Unit DNI)

The Unit DNI assignment requires a review of the arrangements for managing health and safety in a workplace in order to produce justified, proportionate recommendations to improve health and safety performance. A written report must be submitted to NEBOSH electronically for assessment.

Course programme

The course is run by distance/e-learning with tutor support provided by phone and email. All students are provided with a file of notes and coursework, and a login to the ATM Safety e-learning website. Coursework can be completed online or submitted by post or email. Coursework marks do not count towards the overall grade for the qualification, but students must complete the coursework to ensure that they cover and understand each part of the syllabus.
